NOTICE OF JOB AVAILABILITY

TITLE: Assistant Professor

DUTIES: 60% Teaching (College of Agricultural & Life Sciences, CALS) and 40% Research (Florida Agricultural Experiment Station), available in the West Florida Research and Education Center, Institute of Food and Agricultural Sciences, at the University of Florida, with tenure accruing in the School of Forest Resources and Conservation (SFRC; http://www.sfrc.ufl.edu). This assignment may be changed in accordance with the needs of SFRC and WFREC. The individual is expected to assume teaching duties in a dynamic on-going natural resources conservation program on the Milton campus. Teaching responsibilities will include such courses as Forest Ecology, Silviculture, Natural Resource Sampling (co-teach), and two others depending upon the needs of the curriculum and the specific background of the individual hired into the position. The faculty member will participate actively in both undergraduate and graduate education, including chairing graduate student committees, serving on graduate committees, supervising thesis and dissertation research, supervising undergraduate research, and publishing the results with his/her graduate students. He/she is expected to develop a strong research program assisting private and public forestland owners, in topics such as fire ecology, ecological restoration, silvicultural systems, vegetation management, invasive species ecology, and others. The faculty member will seek contract and grant funding actively to support his/her educational and research program. The successful candidate will engage in scholarly activities related to instruction, including teaching undergraduate and graduate courses, advising and mentoring undergraduate and graduate students, participating in curriculum revision and enhancement, seeking funding for the teaching program, supervising undergraduate and graduate research and creative work, publishing teaching-related scholarship, producing learning tools, and engaging in professional development activities related to teaching and advising. Faculty are encouraged to support and participate in the CALS Honors Program, distance education, and international education. Because of the IFAS land-grant mission, all faculty are expected to be supportive of and engaged in all three mission areas—Research, Teaching and Extension—regardless of the assignment split specified in the position description.
REQUIREMENTS: Ph.D. in Forestry or a closely related discipline specializing in applied forest ecology and familiarity with fire ecosystems.

SALARY: $87,000.00/year
